### EXAMINER'S COMMENT

1. In view of the papers filed June 11, 2002, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by addition of Shaygan Kheradpir.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

2. The prior art made of record and not relied upon are deemed to be no more pertinent than the prior art already of record but are considered pertinent to applicant's disclosure. Cuniff et al., Bourg et al., Boyle et al., and Smith teach general aspects of dial stream information. O'Neil teaches providing telemarketing services through a hypertext network using call threads. Eilbacher et al. teach a contact center recording and analyzing customer communications.
